

# WATERMELON AUDRY

## AN EARLY MATURING, CRIMSON SWEET TYPE, HYBRID WATERMELON

- Ideal for early maturity - first on the market
- High yielding
- Large round-oval, uniform fruit
- Deep red flesh colour
- Good flavour and brix

### Type:

A hybrid Crimson Sweet type watermelon.

### Maturity:

Main season 83 - 85 days.

### Plant Characteristics:

A vigorous plant with high, uniform yield.

### Fruit Characteristics:

Large, uniform oval-round fruit with weight of 10 - 13kg. The rind has a medium green colour with light green stripes. The flesh has a deep red colour, with good flavour and brix.

### Plant Spacing:

3,000 to 4,000 plants per ha for dry land plantings. 6,000 to 8,000 plants per ha for irrigated plantings.

### Adaption:

AUDRY is recommended for early and main season production.

### Pollinator:

Approximately 7 male flowers develop for every female flower. When flowers appear, 2 to 4 bee hives should be placed per ha.

### Features & Benefits:

AUDRY is very early maturing and high yielding. The fruit is large oval, with uniform shape and size. The flesh has a deep red colour, with good flavour and brix.

**Disclaimer:** This information is based on our observations and/or information from other sources. As crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, and the environment, including management, we give no warranty express or implied, for the performance of crops relative to the information given nor do we accept any liability for any loss, direct or consequential, that may arise from whatsoever cause. Please read the Starke Ayres Standard Terms and Conditions of Sale before ordering seed.

**Resistance:** is the ability of a plant variety to restrict the growth and development of a specified pest or pathogen and/or the damage they cause when compared to susceptible plant varieties under similar environmental conditions and pest or pathogen pressure. Resistant varieties may exhibit some disease symptoms or damage under heavy pest or pathogen pressure (HR = High resistance, IR = Intermediate resistance).
