

WATERMELON BOXY

A MEDIUM SIZE, CRIMSON SWEET TYPE, HYBRID WATERMELON

- Ideal for main season, medium sized fruit
- Round-oval, uniform fruit
- Intense red flesh colour
- Crisp texture, good flavour and brix
- Resistant to Fusarium (Fon) 0,1

Type:

A hybrid Crimson Sweet type watermelon.

Maturity:

Main season 75 - 80 days.

Plant Characteristics:

A vigorous plant with high, uniform yield.

Fruit Characteristics:

Medium size, uniform oval-round fruit with weight of 4 - 8kg. The rind has a medium green colour with light green stripes. The flesh has intense red colour and crisp texture, with good flavour and brix.

Disease Resistance:

IR: Fusarium (Fon) 0,1

Plant Spacing:

3,000 to 4,000 plants per ha for dry land plantings. 6,000 to 8,000 plants per ha for irrigated plantings.

Adaption:

BOXY is recommended for main season production.

Pollinator:

Approximately 7 male flowers develop for every female flower. When flowers appear, 2 to 4 bee hives should be placed per ha.

Features & Benefits:

BOXY is high yielding, with medium size round-oval fruit of uniform shape and size. The flesh has intense red colour and crisp texture, with good flavour and brix.

Disclaimer: This information is based on our observations and/or information from other sources. As crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, and the environment, including management, we give no warranty express or implied, for the performance of crops relative to the information given nor do we accept any liability for any loss, direct or consequential, that may arise from whatsoever cause. Please read the Starke Ayres Standard Terms and Conditions of Sale before ordering seed.

Resistance: is the ability of a plant variety to restrict the growth and development of a specified pest or pathogen and/or the damage they cause when compared to susceptible plant varieties under similar environmental conditions and pest or pathogen pressure. Resistant varieties may exhibit some disease symptoms or damage under heavy pest or pathogen pressure (HR = High resistance, IR = Intermediate resistance).
