

# BABY SPINACH EL LUCIO F1 HYBRID

## BABY SPINACH VARIETY

- Uniform variety
- Upright habit
- Fast maturing
- Dark green colour with thick leaves

### Type

- Dark green baby spinach with an upright growth habit and thick leaves
- Year round production (area and climate dependent)

### Maturity

Approximately 30 - 35 days (area, season, and climate dependent)

### Plant Characteristics

- Upright habit
- Semi savoy leaves
- Round to oval leaf shape

### Features & Benefits

- Pleasant flavour
- For fresh market and processing
- Quick maturity

### Disease Resistance:

High Resistance: Sv / Pe: 1-7, 9-20  
Intermediate Resistance: Pe: 8

**Disclaimer:** This information is based on our observations and/or information from other sources. As crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, and the environment, including management, we give no warranty express or implied, for the performance of crops relative to the information given nor do we accept any liability for any loss, direct or consequential, that may arise from whatsoever cause. Please read the Starke Ayres Standard Terms and Conditions of Sale before ordering seed.

**Resistance:** is the ability of a plant variety to restrict the growth and development of a specified pest or pathogen and/or the damage they cause when compared to susceptible plant varieties under similar environmental conditions and pest or pathogen pressure. Resistant varieties may exhibit some disease symptoms or damage under heavy pest or pathogen pressure (HR = High resistance, IR = Intermediate resistance).
