

# BUTTERNUT GILDA

## VINING TYPE BUTTERNUT SQUASH

- Early maturing
- Above average yield
- Even, tan external colour
- Good flesh colour and quality
- Medium sized fruit with a thick neck

### Type:

Vining type butternut squash hybrid.

### Maturity:

Early.

### Fruit Characteristics:

The medium sized fruit have a longer and thicker neck than the typical Waltham. Seed cavity and blossom end scar are average for fruit size. Externally fruit is an even tan colour and may show a green stripe. Flesh quality and colour are both good.

### Plant Characteristics:

A vigorous vine giving good cover to the fruit.

**Disclaimer:** This information is based on our observations and/or information from other sources. As crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, and the environment, including management, we give no warranty express or implied, for the performance of crops relative to the information given nor do we accept any liability for any loss, direct or consequential, that may arise from whatsoever cause. Please read the Starke Ayres Standard Terms and Conditions of Sale before ordering seed.

**Resistance:** is the ability of a plant variety to restrict the growth and development of a specified pest or pathogen and/or the damage they cause when compared to susceptible plant varieties under similar environmental conditions and pest or pathogen pressure. Resistant varieties may exhibit some disease symptoms or damage under heavy pest or pathogen pressure (HR = High resistance, IR = Intermediate resistance).
