

HUBBARD SQUASH

STAR 7053

HYBRID HUBBARD SQUASH

- Flesh thick and firm
- Good yield potential in summer
- Large uniform fruit, up to 8 kg in weight
- Less vining than commercial standards, more plants per Hectare

Type:

A new hybrid hubbard squash.

Maturity:

80 - 90 days in Summer (10 days quicker than commercial standard).

Plant Characteristics:

A less vining habit compared to standards. This allows a higher population to be planted, resulting in more fruit per Hectare. A spacing of 1.5m between rows and 1m in the row will give a population of around 6,500 plants per hectare. Increased yield potential in summer plantings. Vigourous plant producing large, uniform fruit with good flesh quality. Faster to maturity than standards, thereby occupying lands for a shorter time and saving on input costs.

Fruit Characteristics:

Large, uniform fruit, up to 5kg in weight. Dark green skin colour. Good uniformity of shape. Thick flesh, orange and firm. Very thin rind layer beneath the skin reduces wastage when peeled.

Yield Potential:

Above average.

Disclaimer: This information is based on our observations and/or information from other sources. As crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, and the environment, including management, we give no warranty express or implied, for the performance of crops relative to the information given nor do we accept any liability for any loss, direct or consequential, that may arise from whatsoever cause. Please read the Starke Ayres Standard Terms and Conditions of Sale before ordering seed.

Resistance: is the ability of a plant variety to restrict the growth and development of a specified pest or pathogen and/or the damage they cause when compared to susceptible plant varieties under similar environmental conditions and pest or pathogen pressure. Resistant varieties may exhibit some disease symptoms or damage under heavy pest or pathogen pressure (HR = High resistance, IR = Intermediate resistance).
