

ZUCCHINI STAR 8023

A MEDIUM DARK GREEN ZUCCHINI HYBRID

- Medium – dark green, glossy cylindrical fruit
- Early maturing, with medium vigour
- Open growth habit
- High yield potential
- Almost no spines on the petioles
- Intermediate resistance to ZYMV

Type:

A medium dark green hybrid Zucchini squash.

Maturity:

Early.

Plant Characteristics:

Very open growth habit, with a medium size plant frame and shorter petioles.

Fruit Characteristics:

Medium dark green, glossy fruit with a small speckle. Cylindrical straight shape with a small blossom end scar.

Disease Resistance:

Intermediate resistance to ZYMV.

Yield Potential:

High.

Disclaimer: This information is based on our observations and/or information from other sources. As crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, and the environment, including management, we give no warranty express or implied, for the performance of crops relative to the information given nor do we accept any liability for any loss, direct or consequential, that may arise from whatsoever cause. Please read the Starke Ayres Standard Terms and Conditions of Sale before ordering seed.

Resistance: is the ability of a plant variety to restrict the growth and development of a specified pest or pathogen and/or the damage they cause when compared to susceptible plant varieties under similar environmental conditions and pest or pathogen pressure. Resistant varieties may exhibit some disease symptoms or damage under heavy pest or pathogen pressure (HR = High resistance, IR = Intermediate resistance).
