

# ONION SOBERANA

## A MID - EARLY SHORT DAY HYBRID

- Top yield of uniform bulbs
- Slightly flattened globe shape
- Good bolting tolerance
- Vigorous, upright plants
- Dark, strongly-attached scale leaves

### Market Aim:

Fresh market.

### Storability:

Short (2-3 months).

### Taste:

Moderately pungent.

### Bulb shape:

Slightly flattened globe.

### Bulb size:

Medium to large (65 – 100mm).

### Skin Quality:

Multiple scale leaf layers with good retention after curing.

### Plant Characteristics:

Strong, upright, dark green foliage.

### Disease Resistance:

Good general foliage disease resistance.

**Disclaimer:** This information is based on our observations and/or information from other sources. As crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, and the environment, including management, we give no warranty express or implied, for the performance of crops relative to the information given nor do we accept any liability for any loss, direct or consequential, that may arise from whatsoever cause. Please read the Starke Ayres Standard Terms and Conditions of Sale before ordering seed.

**Resistance:** is the ability of a plant variety to restrict the growth and development of a specified pest or pathogen and/or the damage they cause when compared to susceptible plant varieties under similar environmental conditions and pest or pathogen pressure. Resistant varieties may exhibit some disease symptoms or damage under heavy pest or pathogen pressure (HR = High resistance, IR = Intermediate resistance).
