

WATERMELON TIGER F1

A LARGE JUBILEE TYPE, HYBRID WATERMELON WITH EXCELLENT TASTE

- Medium to large, uniform fruit
- Bright red flesh colour and high brix
- Good transportability
- High yielding with strong vines

Type:

A hybrid Jubilee type watermelon.

Maturity:

Main season 85 - 90 days.

Plant Characteristics:

Vigorous plants with high, uniform yield, and stable fruit size. Healthy leaf cover that protects the fruit against sunburn.

Fruit Characteristics:

Medium to large uniform, elongated fruit with weight of 9 - 12kg. The rind has a light green colour with dark green stripes. The flesh has a bright red colour, with firm texture, and good flavour and brix.

Plant Spacing:

3,000 to 4,000 plants per ha for dry land plantings. 6,000 to 8,000 plants per ha for irrigated plantings.

Adaption:

TIGER F1 is recommended for early and main season production.

Features & Benefits:

TIGER F1 is high yielding, with uniform yield and stable fruit size. Medium to large elongated fruit of uniform shape and size. The flesh has a bright red colour, with excellent flavour and high brix.

Disclaimer: This information is based on our observations and/or information from other sources. As crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, and the environment, including management, we give no warranty express or implied, for the performance of crops relative to the information given nor do we accept any liability for any loss, direct or consequential, that may arise from whatsoever cause. Please read the Starke Ayres Standard Terms and Conditions of Sale before ordering seed.

Resistance: is the ability of a plant variety to restrict the growth and development of a specified pest or pathogen and/or the damage they cause when compared to susceptible plant varieties under similar environmental conditions and pest or pathogen pressure. Resistant varieties may exhibit some disease symptoms or damage under heavy pest or pathogen pressure (HR = High resistance, IR = Intermediate resistance).
