

WATERMELON TURBO 840

A LARGE, ALL SWEET TYPE, HYBRID WATERMELON WITH EXCELLENT FRUIT QUALITY

- Early maturity
- Very high yielding with uniform fruit
- Deep red flesh colour, firm texture and high brix
- Resistance to Fusarium and Anthracnose

| Type |
|---|
| A hybrid All Sweet type watermelon. |
| Maturity |
| Main season 85 - 90 days |
| Plant Characteristics |
| Vigorous plant with healthy leaf cover that protect the fruit well. Plant Population: 4,000 to 8,000 plants per ha Adaption: TURBO 840 is recommended for main season production. |
| Variety Characteristics |
| Fruit Characteristics: Large, uniform elongated fruit with weight of 11 – 16kg. The rind has a medium green colour with light green stripes. The flesh has a deep red colour and firm texture, with very good flavour and high brix. Pollination: Approximately 7 male flowers develop for every female flower. When flowers appear, 2 to 4 bee hives should be placed per ha. |
| Features & Benefits |
| TURBO 840 produces high yield of extra-large fruit with early maturity. Disease Resistance: IR: Fon (1) / Co (1) |

Disclaimer: This information is based on our observations and/or information from other sources. As crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, and the environment, including management, we give no warranty express or implied, for the performance of crops relative to the information given nor do we accept any liability for any loss, direct or consequential, that may arise from whatsoever cause. Please read the Starke Ayres Standard Terms and Conditions of Sale before ordering seed.

Resistance: is the ability of a plant variety to restrict the growth and development of a specified pest or pathogen and/or the damage they cause when compared to susceptible plant varieties under similar environmental conditions and pest or pathogen pressure. Resistant varieties may exhibit some disease symptoms or damage under heavy pest or pathogen pressure (HR = High resistance, IR = Intermediate resistance).
